**RESPONSE**

Commissioner for Trademarks  
P.O. Box 1451  
Alexandria, VA 22313-1451  
Sir:

This is a response to the Office Action dated March 28, 2007.

Applicant elects to prosecute claims 1-51, each directed to a hose. Applicant respectively submits that claim 73-78, also drawn to a hose, should be examined with claims 1-51. While these claims are not identical, there is overlap in the structure such that the search with respect to the hose in claims 1-51 should be the same as the search for the subject matter of claims 73-78.

Applicant further states that the search with respect to the claims directed to the hose would be the same as the search with respect to the method for making a hose, which is the subject matter of claims 52-72.
